

Street Slammer

1627005

The Street Slammer is a durable and robust anti-vandalism backstop. Frames are made of hot-dip galvanized steel, the steel ring is galvanized and coated, fixings are made of stainless steel. The upright can be equipped with 2 main beams, in order to have 2 backstops from only 1 anchor point. Different projection, backboard, ring and height options available.

- Sturdy thick-walled galvanized post.
- Safe protrusion of 225 cm.
- Quiet anti-vandalism wire mesh backboard.
- With fixed outdoor ring and nylon net.
- With anchorage set and easy mould for the correct placement.

The above Street Slammer (1627005) consists of:

- | | |
