

Schelde Sports Telescopic TCS Competition Volleyball Set

1654056

The new Telescopic Competition Volleyball Set allows perfect net tension under all circumstances. The Tension Control System (TCS) provides an indication of the correct tension on the net during set-up. Lightweight aluminium poles with a reinforced core ensure maximum rigidity and are easy to operate.

Highlights

- Tension Control System for optimal net tension during play
- Improved competition net with Kevlar cord for optimal net tension
- Lightweight reinforced aluminium poles, easy to set-up and store
- Improved spindle for fast set-up due to new integrated pulley system
