

SAM School

1626131

The SAM School is a rollable non-folding compact basketball system. The SAM School is a backstop highly suitable for school use, thanks to its adjustability to 9 different heights, its small storage space and its portability.

Storage position

Ring height 140 cm

Ring height 305 cm

Technical Specifications

Projection:	65 cm, at a ring height of 305 cm.
Adjustment:	Ring height can be set at 140, 160, 180, 200, 220, 240, 260, 280 and 305 cm.
